TECTONIC

**Apropos Tectonic At Grand Designs Live 2008** 22 Apr 08

Bespoke glass structure specialists Apropos Tectonic will be exhibiting at Grand Designs Live for the first time this year. Apropos Tectonic focus on creating beautiful glass and aluminium structures. The company has gained its reputation as one of the UK's leading manufacturers for innovative and distinctive solutions to differentiate customer's homes.

Increasing light and adding value to your home with a bespoke orangery, conservatory, lean-to, glasshouse or summerhouse provides the ideal answer to a truly individual home. The company caters for all shapes and sizes of structure from roof lights, lean-tos, pool enclosures, full height sliding doors up to full storey glass tiered rooms. All of which create practical yet stylish extra space with interesting elements and features to excite the imagination and transform the ordinary into the stunning.

Designed and built to each customer's specific requirements, unusual bespoke projects have become its forte. Aluminium and glass presents the perfect combination in both extensions and freestanding buildings due to the flexibility of being able to create any shape or size required. A bespoke glass structure will guarantee to transform the look of your home.

Whichever structure you choose, you can be sure that by choosing Apropos Tectonic, you will be choosing light, space and style. The choice is as limitless as your imagination.

Visit stand number B324 in the Grand Build Hall and let Apropos open your eyes to the possibilities.
