## AMAZING GLAZING ENHANCES SPACE

A bespoke glass structure can provide extra space in the form of a kitchen or dining extensions, conservatory and glasshouses.

Apropos Tectonic's contemporary living range includes roof lights, pool houses, sliding doors and garden studios. The aluminium designs are created by a team of designers, who can craft the glasshouse you desire, or they can work alongside your architect to suit your vision. 0845 434 8901 [apropos-conservatories.com](http://apropos-conservatories.com)
